

# HPCC Portable Site Office

## Smart, Sustainable, and Ready to Move

**Ready to Assemble**

**Fast Deployment**

**High Salvage Value**

**Hassle Free Installation**

**Relocatable**

**Built to Last**

RINAC introduces the HPCC Portable **Air-conditioned** Site Office, a ready-to-deploy workspace built using High Performance Composite Construction (HPCC) technology.

Designed for speed, strength, and sustainability, this pre-fabricated modular unit is ideal for project sites, remote operations, or temporary office needs.

Built entirely with **RPUF** insulated sandwich panels for the walls, floor, and roof, the structure ensures superior thermal efficiency, energy savings, and greater durability. Compact yet functional, it comes fully equipped with workstations, sleeping and storage facilities, a washroom, and essential utilities—offering a complete, comfortable, and productive environment.

Portable on a 40 ft trailer, the HPCC Site Office can be relocated effortlessly, making it an ideal choice for dynamic project teams. With a minimum life expectancy of 20 years (T&C apply), it's a durable, eco-friendly and cost-effective solution for modern businesses on the move.

**Dispatch from  
Bengaluru:**

**40-50 working days  
from order confirmation  
and payment.**

# Challenges with Conventional Site Offices

Traditional site offices often pose multiple challenges:

- Time-consuming setup with civil work, welding, and on-site fabrication
- No insulation, leading to uncomfortable indoor conditions and high energy costs
- Corrosion and short lifespan, especially in humid or coastal environments
- Limited portability, making relocation difficult and costly
- Low hygiene and aesthetics, which can impact worker morale and client perception

## Who Can Use the HPCC Portable Site Office?

The HPCC Portable Site Office is ideal for:

- Construction projects
- Oil & Gas projects
- Industrial plants
- Infrastructure companies
- Government departments
- Disaster relief teams
- Renewable energy projects
- Engineers & Site supervisors
- Project consultants
- Highways/Toll Plazas/Weigh Bridges
